

SAFE WORKING IN CONFINED SPACES

1433

a two page issue

October 1999
revision of 5-1997

Safe working is always of the greatest importance, but particularly during application of tankcoatings. The illustrations on this sheet indicate the quite simple principal measures that will ensure safe working.

NO

No iron tools, lighters, matches, nailed shoes (preferable anti-static shoes). No smoking, welding etc.

NO

No nylon overalls, plastic containers (static electricity)

Limitation of Liability - The information in this data sheet is based upon laboratory tests we believe to be accurate and is intended for guidance only. All recommendations or suggestions relating to the use of the products made by Sigma Coatings, whether in technical documentation, or in response to a specific enquiry, or otherwise, are based on data which to the best of our knowledge are reliable. The products and information are designed for users having the requisite knowledge and industrial skills and it is the end-user's responsibility to determine the suitability of the product for its intended use.

Sigma Coatings has no control over either the quality or condition of the substrate, or the many factors affecting the use and application of the product. Sigma Coatings does therefore not accept any liability arising from loss, injury or damage resulting from such use or the contents of this data sheet (unless there are written agreements stating otherwise).

The data contained herein are liable to modification as a result of practical experience and continuous product development. This data sheet replaces and annuls all previous issues and it is therefore the user's responsibility to ensure that this sheet is current prior to using the product.
