SIGMACAP FAST DRY 45

	2 pages May 2008			
DESCRIPTION	quick drying, modified alkyd, gloss finish coat for structural steel – fast drying – fast handling – summer and winter grade thinners available – suitable for atmospheric exposure conditions			
PRINCIPAL CHARACTERISTICS				
COLOURS AND GLOSS BASIC DATA AT 20°C Mass density Volume solids VOC (supplied) Recommended dry film thickness Theoretical spreading rate Touch dry after Dry to hanle Overcoating interval Shelf life (cool and dry place) Flash point	White, Gray (other colours on request) –gloss (1 g/cm ³ = 8.25 lb/US gal; 1 m ² /l = 40.7 ft ² /US gal) 1.3 g/cm ³ 43 $\pm 2\%$ max g/l (approx lb/gal) (depending on shade) 50 µm per coat 8.6 m ² /l for 50 µm 15 min. at 20°C 40 min. at 20°C, less than 15 min at 40°C min. 2 hours max. unlimited at least 12 months 28°C			
RECOMMENDED				
SUBSTRATE CONDITIONS AND TEMPERATURES	 steel, previous suitable coat (Sigmacap Fast Dry 10) dry and free of any contamination substrate temperature should be above 5°C and at least 3°C above dew point 			
INSTRUCTIONS FOR USE	 stir well before use the temperature of the paint should preferably be above 15°C, otherwise extra thinner may be required to obtain application viscosity too much solvent results in reduced sag resistance adequate ventilation must be maintained during application and curing (please refer to sheet 1433 and 1434) 			
AIRLESS SPRAY Recommended thinner Volume of thinner Nozzle orifice Nozzle pressure	Sigma thinner 21-06 (summer and winter-grade thinner available) 0 - 8%, depending on required thickness and application conditions approx. 0.38 - 0.48 mm (= 0.015 - 0.019 in) 12 - 16 MPa (= approx. 120 - 160 bar; 1700 - 2270 p.s.i.)			
AIR SPRAY Recommended thinner Volume of thinner Nozzle orifice approx. Nozzle pressure	Sigma thinner 21-06 (summer and winter-grade thinner available) 5 - 10%, depending on required thickness and application conditions 1.7 - 2.0 mm 0.2 - 0.3 MPa (= approx. 2 - 3 bar; 28 - 43 p.s.i.)			

BRUSH/ROLLER Recommended thinner Volume of thinner	(not recommended due to the fast drying nature of the product) Sigma thinner 21-06 (summer-grade thinner advised) 0 - 3%					
CLEANING SOLVENT	Sigma thinner 21-06 (preferred) or 90-53					
SAFETY PRECAUTIONS	for paint and recommended thinners see safety sheets 1430, 1431 and relevant material safety data sheets					
	this is a solvent based paint and care should be taken to avoid inhalation of spray mist or vapour as well as contact between the wet paint and exposed skin or eyes					
ADDITIONAL DATA	Overcoating table

Worldwide availability	Whilst it is always the aim of Sigma Coatings to supply the same product on a worldwide basis, slight modification of the product is sometimes necessary to comply with local or national rules/circumstances. Under these circumstances an alternative product data sheet is used.					
REFERENCES	Explanation to product data sheets see information sheet 1411 Safety indications see information sheet 1430 Safety in confined spaces and health safety Explosion hazard - toxic hazard see information sheet 1431 Safe working in confined spaces see information sheet 1433 Directives for ventilation practice see information sheet 1434 Cleaning of steel and removal of rust see information sheet 1490					

Limitation of Liability

The information in this data sheet is based upon laboratory tests we believe to be accurate and is intended for guidance only. All recommendations or suggestions relating to the use of the Sigma Coatings products made by PPG Protective & Marine Coatings, whether in technical documentation, or in response to a specific enquiry, or otherwise, are based on data which to the best of our knowledge are reliable. The products and information are designed for users having the requisite knowledge and industrial skills and it is the end-user's responsibility to determine the suitability of the product for its intended use.

PPG Protective & Marine Coatings has no control over either the quality or condition of the substrate, or the many factors affecting the use and application of the product. PPG Protective & Marine Coatings does therefore not accept any liability arising from loss, injury or damage resulting from such use or the contents of this data sheet (unless there are written agreements stating otherwise).

The data contained herein are liable to modification as a result of practical experience and continuous product development. This data sheet replaces and annuls all previous issues and it is therefore the user's responsibility to ensure that this sheet is current prior to using the product.
